

Hi Erica

I have attached a few pic's for camping, boat parking, launching area and entertainment area.

Camping

All of the boats will be removed from the grass camping area for the event. There are two camping pictures. If we can get the sailors to book camping early we will be in a position to make arrangements if we run short of space. There are full ablutions at the clubhouse. There will be tea, coffee and meals available all day, each day.

Boat parking

Depending on the numbers we will probably make the boatyard in the container yard behind the camping area. We did this for the Worlds in 2005 and it seemed to work quite well.

Launching area.

We will be launching down the slipway onto the protected beach. When I took the photo's it was a spring high tide. The beach is a lot bigger for most of the day.

Entertainment area.

I have enclosed a picture of the clubhouse and the braai area on the front lawn. This is where we will spend most evenings.

I have also enclosed a picture of the East Pier which we are hoping to setup as a hospitality/viewing area as we can get quite close to the boats from here.

I am hoping this will be an event to remember with dart sailors, their families and spectators having a lot of fun!

More info in a week or two.

Regards

Chris
